

# The Kettle Club Rocks Stafford!

After 2 years out in the cold (quite literally!) the club was back in the limelight of the main hall, in true KC style, putting on a fabulous show for the punters with a full on 70's themed stand. Featuring a single gleaming example of each model in the range; the centre stage of the stand was reserved for Rab Hayes's stunning Rizla special, spinning upon the turntable. As the funkadelic sounds and smoke machines were cranked up to 11, the team strutted their stuff, dressed head to toe in period regalia; the ladies adding a touch of glitz and glamour, whilst the guys sported some very dodgy facial hair and hairstyles! Needless to say the crowds loved it, and we were mobbed throughout the entire weekend. There was also club representation within the Suzuki Village and we had 3 excellent machines displayed at the request of

Suzuki GB. The organisers of the event were very glad to see the club back in the main hall and we were extremely flattered when they said that it was where we rightly belonged. These comments were heightened by the praise, lavished upon the team by both the public and representatives of other clubs in attendance and if that was not reward enough for the hard work put in by the team, then the 2nd place in the "Best Club Stand" category and a £500 cheque, was the icing on a very tasty Kettle shaped cake!
